## Message from the Principal: Susan Flodeen

Kingsley Elementary has a proven record of academic achievement and character-building success. Our students' assessment scores continue to show proficiency in reading, math, social studies and science. Kingsley provides a rich educational environment for all students that encourages an extension of lessons and "real world" applications. Students develop into problem solvers and leaders with the guidance of instruction, our Positive Behavior Supports program, student council, our music program, academic competitions, Lego League, differentiated lessons, arts integration, and community service projects. We are proud of our dedicated staff, our motivated students, our supportive parents and Partners in Education.
