ORANGE ELEMENTARY WILL PRESENT RESEARCH AT UNI'S "SPOTLIGHT GALLERY"

WATERLOO-Orange Elementary students will present their research completed last spring on storm water runoff and its effect on the wetlands, at UNI's "Spotlight Gallery".

UNI's "Spotlight Gallery" will take place on Thursday, February 23, 2012, from 9:30 am - 4 pm, at the Innovative Teaching and Technology Center at UNI in Cedar Falls, Iowa.

The fifth grade Orange Elementary students were selected by UNI to participate. The students are Abby Avis, Fiona Dalbey, Hannah Henry, Kerris Roberts, and Cassidy Burger. They will informally discuss their project during the morning "Spotlight Gallery" (table displays) and will have lunch with UNI faculty members. Afterwards, the students will present a PowerPoint presentation on their procedures and results between 1:30 - 3:00 pm.

This is a great honor because only certain schools and teachers are invited to apply, then the applicants are chosen based on their projects.

For more information, contact Doreen Hayek, Special Projects Administrator, Information Technology Services-Educational Technology, at doreen.hayek@uni.edu or call 273-7300, or Carol Boyce, Gifted Teacher/Coordinator, Waterloo Community Schools at 319-433-2880.

About Waterloo Schools

Waterloo Schools, located within Black Hawk County, Iowa, provide a full range of educational services to students in pre-kindergarten through grade 12. Students attending Waterloo Schools are engaged in learning and prepared for success. The district prides itself on hiring quality educators, maintaining the latest educational resources, and ensuring a safe and healthy environment. Services include regular and enriched academic education, special education for students with special needs, career education, and numerous individualized programs such as specialized instruction for at-risk students and for limited-English-speaking students.
